

PDQ Flyers Rules

1. All pilots must have a current M.A.A.C. membership, copies of M.A.A.C. and P.D.Q. Flyers membership cards must be attached to your frequency pin.
2. All M.A.A.C. and P.D.Q. Flyers Rules must be obeyed at all times, no exceptions.
3. "EVERYONE" is required to sign the DND waiver form (one time only).
4. M.A.A.C. Frequency Board to be used at all times. Transmitter and Frequency Pins for 72 MHZ radios must be kept in the impound area when not flying. 2.4 GHZ radios exempt from impound policy, but pins must be attached to Frequency Board. Be respectful to others, limit flights to 15 minutes if sharing a frequency.
5. Absolutely no flying behind the flight line, which is end to end of the cut grass field. Aircraft flying high alpha maneuvers commonly know as 3D can come no closer to the pits than the centre line of the runway (approximately 30' in front of the flight line).
6. Communicate your intentions "LOUDLY" so others on the flight line can hear you! "ON THE FIELD", "LANDING FROM THE LEFT", "LANDING FROM THE RIGHT", "TAKE OFF FROM THE LEFT", "TAKING OFF FROM THE RIGHT." If you get in trouble "SHOUT IT OUT."
7. NOISE RULES: (Electric Exempt)
 1. No starting of engines before 10AM or after sunset.
 2. Aircraft must not exceed 92 db @ 6 meters.
 3. Maximum 5 aircraft at one time before 5 PM and 3 after 5 PM.
 4. Rule Exemption: 95db @ 6 meters with the following 3 conditions:
 1. Only one aircraft in the air
 2. Pilots agree to stand down
 3. Never after 5 PM.
 5. All Gas/Glow engines must be equipped with a proper muffler and current DB sticker attached in plane view, no exemptions for club members.
8. Fail Safe must be configured for either throttle off or low throttle position if radio is capable.
9. All garbage must be taken away by whoever brought it.
10. Guest flyers may visit our field 3 times per year (excluding events). If you visit more often you are expected to join the club.

11. Until Pilots have been trained and certified, all flying will be under Certified Club Instructors using the "Buddy Box Training System." Instructors are not to be held responsible for damage to a student's equipment, if there is an accident.
12. All Children and Pets must be kept under control at all times. Pets on a leash. During any active flying, Pets are restricted from the pits and pilot shack areas.
13. Absolutely no alcohol permitted on premises.
14. Parking in parking area only. Respect handicap parking area. As per M.A.A.C. rules no parking within 100 feet of the flight line.
15. First one at the field is responsible for ensuring that someone phones in to the gate house to advise them that the field is in use. The last one to leave the field is responsible to make sure that the gate house has been advised that everyone has left the premises.
16. Last one out must lock the gate.
17. Absolutely no flying of turbine aircraft during high or extreme forest fire conditions. Only concealed flameless (compressor equipped) turbine aircraft allowed and only with a horizontal jet blast. No starting propane bottles installed on the aircraft allowed. A spotter must always be present. Two people must be ready with 5 lb CO2 fire extinguishers. All aircraft must have Kevlar fuel tanks with a maximum 4 liters of fuel. Aircraft must be equipped with a mechanical fuel shut-off valve and a electric computer managed fuel feed valve. There must be a cell phone on site and the aircraft must have been inspected by the PDQ Flyers safety committee.
18. All aircraft must be tethered when starting or being run up on the tables. All aircraft should be facing the shack when started on the pit tables.
19. NO SMOKING in Pit area or pilot shack, be respectful of others.
20. Helicopters and Airplanes do not fly at the same time.

Respect your fellow flyer!

Exercise common sense!

We are here to have fun!

Have a great day!!!
